Enjoy a first-hand look inside the famous wizard's magical world in *Harry Potter™: The Exhibition*.

This world-premiere exhibit is your chance to experience the craftsmanship of more than 200 authentic artifacts from the *Harry Potter* films, displayed in settings inspired by the film sets.

Along the way, fans will get an up-close and personal look at some of their favorite props and costumes from the *Harry Potter* films. Harry's original wand and eyeglasses, elaborate outfits from the Yule Ball, and Gryffindor™ school uniforms are just some of the iconic items on display. They will also be able to take a tour through Hagrid's hut, enter a Quidditch™ area to toss a "Quaffle," and may even encounter a few creatures like Buckbeak™ or a giant Acromantula spider along the way.

The Museum of Science and Industry is pleased to invite you to experience this imaginative world for yourself in the world premiere of *Harry Potter: The Exhibition*. This exhibition will be the only Midwest stop during the exhibit's U.S. tour.
